What Adjutant General's Report Says of the Thirteenth Regiment.

OPINION OF CAPTAIN

Our Soldier Boys are the Only Ones He Deems Worthy of Particular Mention-How the Officers of the Regiment Rank Among the Officers of the State Division-Those Who Have Qualified.

At last, after a delay of over six months, the adjutant general's report for 1893 has been issued. Copies of it reached the headquarters of the Thirmation of the rank and file of the regiment who rarely get a peep at the ad-jutant general's report, "Critic" hereith publishes such extracts from the sport as pertain to the Thirteenth. By closely comparing the ratings each

Company A again leads the van with a figure of efficiency of 96 80. Company D is a close second. This company would have tied Company A for first place were it not for its rating on "Books and Papers," Company A, it will be noticed, is marked v. s. on "Books and Papers," while Co. D is marked

S. This is the only instance in the inspection that A excels D. There seems to have been something wrong with the "books and papers" of Company D. This is surprising too, as its company clerk is one of the best and most careful in the regiment. Company C comes in third with a figure of 95.70 This company fell behind Com-panies A and D in "guard duty" and "rifls practice."

These three companies are the highest rated in the regiment. The three lowest rated are Company H. 90.10; Company E, 87.80, and Company F, 86.60. Below will be found the regiments ratings in full;

CAPTAIN ROGERS' OPINION.

Another interesting item in the ad-

jutant general's report and one which ought to make the regiment feel proud, particularly the First battalion, is the report of Captain Alex Rogers, Fourth

United States cavalry, who was sent to inspect the National Guard of Penn-

sylvania encampment. In his report

For the benefit of the non-coms who attended school last Thursday evening and for those who should have been present, but were absent, "Critic" herewith publishes the interpretation of paragraph 520, extended order of aquad: "Although the deployment is always on No. 2, front rank, the assembly, increasing and diminishing intervals is on the 'base and guide,' which may be any man whom the corporal may have designated and before whom he has posted himself," See also paragraphs 525 533-631; Regulations. This, it is believed, solves the knotty question of the June school, CRITIC.

Now that the traction company has performed its part of the work the question is being asked, when will North Main avenuo be put in a proper state of repair? In wet weather there are innumerable small lakes and at all times there are endless cases of broken harness and broken shafts caused by the large ruts. Miss Katie Powell, daughter of Thomas

Powell, of Spring street, met with a pain-ful accident at the braid factory on Saturday, resulting in severe laceration of the fingers of her right hand. While adjusting the machine in her charge her fingers were caught in the cog wheels. The injuries were promptly attended to and a little progress was shown yesterday. The following teachers in the Welsh Baptist Sunday school were presented

with books yesterday in recognition of special services: L. N. Roberts, Isaac E. Edwards and Mrs. William H. Phillips. The presentations were made by Thomas Jehu, superintendent, on behalf of the school. Isnac Williams catechised the junior scholars and was favorably impressed with the examination.
